COURSE_TITLE: The Complete Web Development Bootcamp
SHORT_DESC: Build modern websites with HTML, CSS, JavaScript & React
DESCRIPTION: A comprehensive, project-driven web development course that takes you from complete beginner to confident developer. You will build real projects including a portfolio site, a JavaScript quiz app, and a React task manager – while mastering the tools professionals use daily.
LEVEL: beginner
LANGUAGE: English
PRICE: 0
CATEGORY: Web Development
TAGS: html, css, javascript, react, web development, beginner

--- LESSON 1 ---

LESSON_TITLE: Welcome & Course Overview
LESSON_TYPE: TEXT
LESSON_DURATION: 5
LESSON_IS_FREE: yes
LESSON_CONTENT: Welcome to The Complete Web Development Bootcamp! In this opening lesson you will get a clear picture of what we will build together, how the course is structured, and what tools you need to install (VS Code, Chrome DevTools). By the end of the course you will have three complete projects in your portfolio.

--- END LESSON ---

--- LESSON 2 ---

LESSON_TITLE: HTML Foundations – Structure of a Web Page
LESSON_TYPE: TEXT
LESSON_DURATION: 20
LESSON_IS_FREE: yes
LESSON_CONTENT: HTML (HyperText Markup Language) is the skeleton of every web page. We cover doctype declarations, semantic tags (header, nav, main, footer, article, section), headings h1-h6, paragraphs, links, images, lists, and forms. Project: build the HTML skeleton of your personal portfolio page.

--- END LESSON ---

--- LESSON 3 ---

LESSON_TITLE: CSS Styling – Making Pages Beautiful
LESSON_TYPE: TEXT
LESSON_DURATION: 25
LESSON_IS_FREE: no
LESSON_CONTENT: CSS (Cascading Style Sheets) controls color, typography, spacing, and layout. Topics: selectors, the box model, flexbox, CSS Grid, responsive design with media queries, and CSS custom properties (variables). We style the portfolio page built in the previous lesson into a polished, mobile-friendly design.

--- END LESSON ---

--- LESSON 4 ---

LESSON_TITLE: JavaScript Essentials – Making Pages Interactive
LESSON_TYPE: TEXT

LESSON_DURATION: 35
LESSON_IS_FREE: no
LESSON_CONTENT: JavaScript brings web pages to life. This lesson covers variables (let/const), data types, functions, arrow functions, DOM manipulation, event listeners, fetch API for HTTP requests, Promises, and async/await. Project: build an interactive quiz app that fetches questions from a public trivia API.

--- END LESSON ---

--- LESSON 5 ---

LESSON_TITLE: Introduction to React – Component-Based UIs
LESSON_TYPE: TEXT
LESSON_DURATION: 30
LESSON_IS_FREE: no
LESSON_CONTENT: React is the most popular library for building modern user interfaces. We cover JSX syntax, functional components, props, useState, useEffect, conditional rendering, lists & keys, and lifting state up. Project: convert our quiz app into a React application with proper component architecture.

--- END LESSON ---

--- LESSON 6 ---

LESSON_TITLE: Capstone Project – React Task Manager App
LESSON_TYPE: TEXT
LESSON_DURATION: 40
LESSON_IS_FREE: no
LESSON_CONTENT: Put everything together by building a full-featured Task Manager application in React. Features include: add / complete / delete tasks, filter by status, local-storage persistence, and a clean responsive UI. At the end you will deploy it to Vercel so it is live and shareable from your portfolio.

--- END LESSON ---

--- LESSON 7 ---

LESSON_TITLE: What Is Next? Career Paths & Resources
LESSON_TYPE: TEXT
LESSON_DURATION: 10
LESSON_IS_FREE: no
LESSON_CONTENT: Congratulations on completing the bootcamp! This final lesson maps out the paths you can take next: full-stack with Node.js & databases, advanced React with Next.js, mobile with React Native, or data-focused work with Python. We share a curated list of resources, communities, and job-search tips.

--- END LESSON ---
