## COURSE INFORMATION

**COURSE\_TITLE:** The Complete Web Development Bootcamp

**SHORT\_DESC:** Build modern websites with HTML, CSS, JavaScript & React

**DESCRIPTION:** A comprehensive, project-driven web development course that takes you from complete beginner to confident developer. You will build real projects including a portfolio site, a JavaScript quiz app, and a React task manager – while mastering the tools professionals use daily.

**LEVEL:** beginner

**LANGUAGE:** English

**PRICE:** 0

**CATEGORY:** Web Development

**TAGS:** html, css, javascript, react, web development, beginner

## LESSONS

### --- LESSON 1 ---

**LESSON\_TITLE:** Welcome & Course Overview

**LESSON\_TYPE:** TEXT

**LESSON\_DURATION:** 5

**LESSON\_IS\_FREE:** yes

**LESSON\_CONTENT:** Welcome to The Complete Web Development Bootcamp! In this opening lesson you will get a clear picture of what we will build together, how the course is structured, and what tools you need to install.

### --- END LESSON ---

### --- LESSON 2 ---

**LESSON\_TITLE:** HTML Foundations – Structure of a Web Page

**LESSON\_TYPE:** TEXT

**LESSON\_DURATION:** 20

**LESSON\_IS\_FREE:** yes

**LESSON\_CONTENT:** HTML is the skeleton of every web page. Topics: semantic tags, headings, paragraphs, links, images, lists, and forms. Project: build the HTML skeleton of your personal portfolio page.

### --- END LESSON ---

### --- LESSON 3 ---

**LESSON\_TITLE:** CSS Styling – Making Pages Beautiful

**LESSON\_TYPE:** TEXT

**LESSON\_DURATION:** 25

**LESSON\_IS\_FREE:** no

**LESSON\_CONTENT:** CSS controls colour, typography, spacing, and layout. Topics: selectors, the box model, flexbox, CSS Grid, responsive design with media queries, and CSS custom properties. We style the portfolio from Lesson 2.

### --- END LESSON ---

### --- LESSON 4 ---

**LESSON\_TITLE:** JavaScript Essentials – Making Pages Interactive

**LESSON\_TYPE:** TEXT

**LESSON\_DURATION:** 35

**LESSON\_IS\_FREE:** no

**LESSON\_CONTENT:** JavaScript brings pages to life. Topics: variables, functions, DOM manipulation, event listeners, fetch API, Promises, and async/await. Projects: build an interactive quiz app using a public trivia API.

### --- END LESSON ---

### --- LESSON 5 ---

**LESSON\_TITLE:** Introduction to React – Component-Based UIs

**LESSON\_TYPE:** TEXT

**LESSON\_DURATION:** 30

**LESSON\_IS\_FREE:** no

**LESSON\_CONTENT:** React is the most popular UI library. Topics: JSX, functional components, props, useState, useEffect, conditional rendering, and lifting state up. Projects: convert the quiz app into a React application.

### --- END LESSON ---

### --- LESSON 6 ---

**LESSON\_TITLE:** Capstone – React Task Manager App

**LESSON\_TYPE:** TEXT

**LESSON\_DURATION:** 40

**LESSON\_IS\_FREE:** no

**LESSON\_CONTENT:** Build a full-featured Task Manager: add / complete / delete tasks, filter by status, local-storage persistence, and a responsive UI. Deploy to Vercel so it is live and shareable from your portfolio.

### --- END LESSON ---

--- LESSON 7 ---

**LESSON\_TITLE:** What Is Next? Career Paths & Resources

**LESSON\_TYPE:** TEXT

**LESSON\_DURATION:** 10

**LESSON\_IS\_FREE:** no

**LESSON\_CONTENT:** Congratulations! This final lesson maps out what to learn next: full-stack with Node.js, advanced React & Next.js, mobile with React Native, and data work with Python. Includes curated resources and job search tips.

--- END LESSON ---
